

# The New Anderson Rose Online Video Show Over!

- Most buyers and tenants start their search on line
- So that's where we need to meet them.
- After all - people buy from people.
- And it takes more than a photo and floor plan to really impress a buyer
- That's why we now present our client's property to the camera
- And upload the video to   
- We then broadcast it to the world via Social Media   
- And it works!

Choose Anderson Rose to help your home make the very best first impression.
